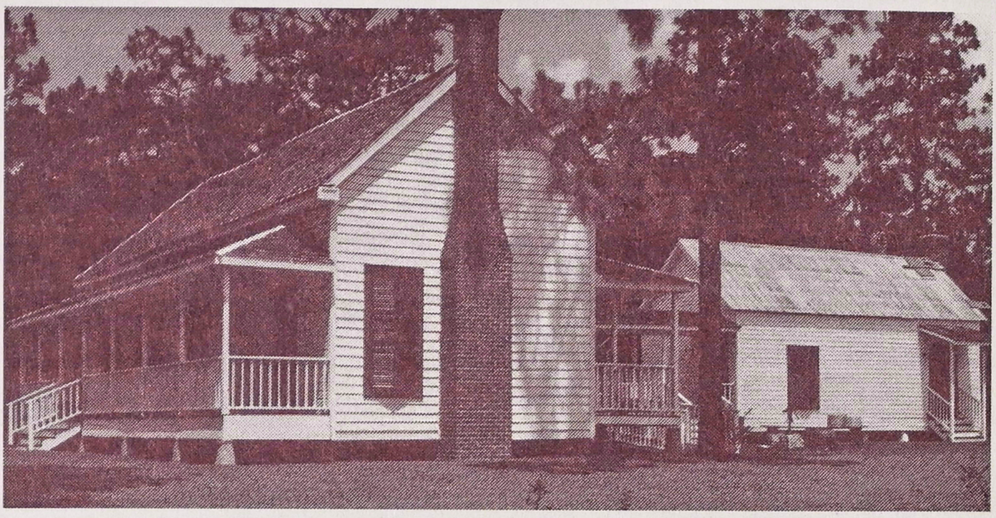
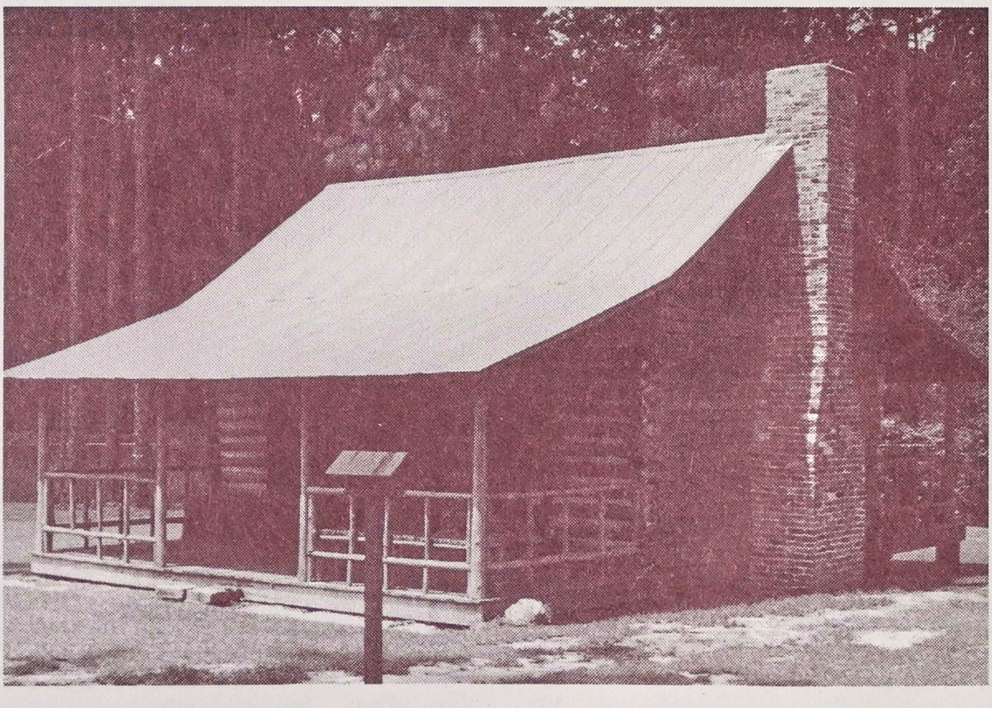
STEP BACK IN TIME ...



The Yon House

The Panhandle Pioneer Settlement is a non-profit organization dedicated to the preservation of rural Florida. The Panhandle Pioneer Settlement offers guests the opportunity to experience Florida life as it was around the turn of the century.

The Panhandle Pioneer Settlement was founded in 1989 to document, research, and preserve folkways of past generations. In addition, the Settlement has acquired eleven period structures dating from 1840 to 1940.



The Bailey Cabin

The Yon House was built in 1897 and serves as an example of the dog-trot style layout with a detached kitchen building.

The Clarksville Post Office is a 600 square foot wood frame structure built in the 1930s. This building once served as a general store and post office here in Calhoun County.

The Frink Gymnasium is a 4,200 square foot wood frame building built in 1940 for the Frink School.

The Bailey Log Home was built in about 1860. This 375 square foot structure is an example of round log construction.

The Chason Cabin was built in about 1830. The double dove-tail joinery construction of this cabin is very sophisticated.

The Wells Cabin was built in 1846 of square notched logs and offers a third example of cabin construction styles.

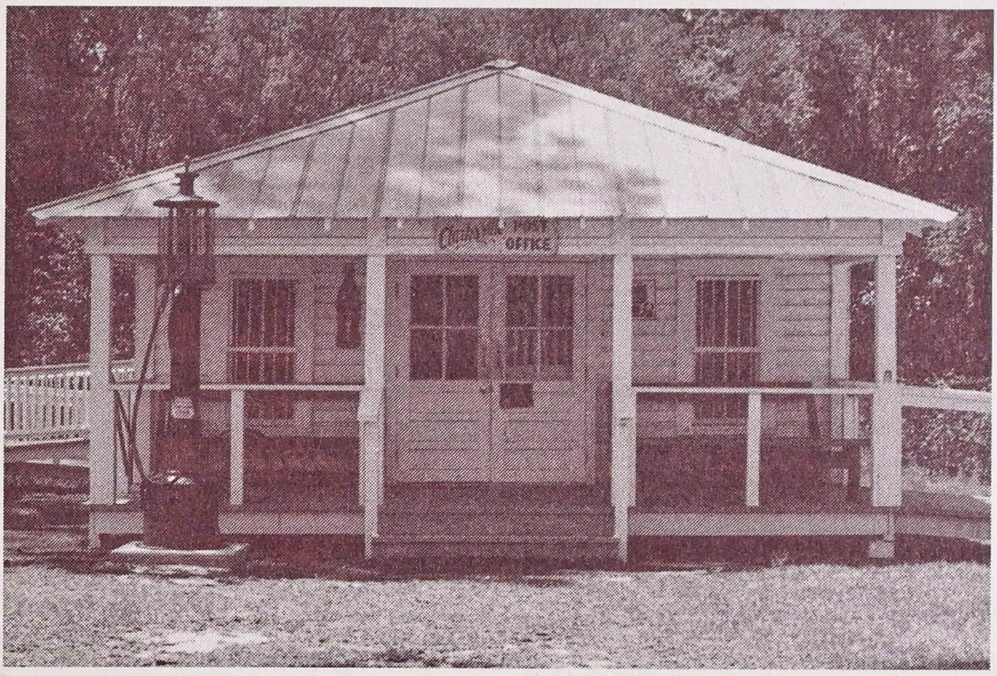
The McClellan House was built before the turn of the century and prides an example of construction with "saw mill" boards.

The Sexton Cabin with the round log construction was built in 1872. It is flanked by an authentic "outhouse."

The Shiloh School is a two room wood frame structure built in the late 1800s and served as a school here in Calhoun County.

The Red Oak Methodist Church is a "T" shaped wood frame structure with exposed beams and natural finish beaded board walls.

The Blacksmith Shop is a faithful reproduction from the period. It has post and beam construction with board-n-batten siding.



The Clarksville Post Office

We invite you to join with us in this endeavor to preserve our heritage by joining the membership, contributing time and/or donating artifacts to complete the buildings.
